[Copy of a Letter.]
BALTIMORE, Jan 8, 1856
Messrs C & J Marshall—Gentlemen: At the request of your Agent in Baltimore, in regard to our opinion and experience of your copper-coated spikes, we, without hesitation, say we believe them the best substitute for copper yet introduced, and better fastening for ships, inasmuch as you have the strength of iron with the preservative qualities of copper.
We have used some of your Spikes in old vessels as a substitute for copper and have had occasion to draw them, but a year afterwards, and found them with the coating as firm as when they were driven, and with no appearance of oxidation
Very respectfully yours,

No. 323 Broadway, New York,
by letter or in person for
I. M. *SINGER & CO'S GAZETTE*

This paper is devoted entirely to the Sewing Machine interest Copies will be supplied gratis to all interested
N. B.—The unparalleled success of our Sewing Machines has induced several fraudulent imitations of them besides numerous infringements of our patents—of which we own sixteen Suits for the infringement of our patents have recently been decided in our favor in the U S Circuit Courts in New York and New Jersey In these suits the great principle of
Holding down the Fabric to be Sewed to the Surface of the Machine, by a yielding pressure,
which is used in all Sewing Machines—has been fully established. The Wheeler & Wilson, and the Grover & Baker Sewing Machines as we all-ge each infringe three distinct patents owned by us. We have suits against them in several of the U. S Courts, which will soon be tried We hereby caution the public not to buy any infringing Machines, as they can be compelled by law to stop using them, and to pay costs and damages.
Local Agents wanted to make sales of our improved sewing machines. To persons properly qualified for the business, a rare opportunity for profitable and pleasant employment is offered.
New and improved machines exchanged on liberal terms for old machines of every kind

OFFICE of the Commissioner of Lotteries.—*Baltimore, April 18, 1856.* The undersigned Commissioner of Lotteries of the State of Maryland, being in receipt daily of letters from various portions of the country, making inquiry as to Lottery Schemes with which the country is flooded, and which purport to be *"decided by the Drawings of the Maryland Consolidated Lotteries,"* takes this method to answer all such letters of inquiry, and to inform the public *that all Lotteries purporting to be decided by the Maryland Drawings are Gross Frauds*, that certain parties with a style themselves Morris & Co., and pretend to be Managers or Sole Agents for the Grand Charter Lotteries at Cleveland, Ohio, are impostors, and said Lottery a fraud having neither legal or pretensions to existence And that another fictitious firm, styled Murry & Co., Cleveland, Ohio, are also impostors and all Lotteries who & they profess to be managers or agents for, are also frauds.
RICHARD FRANCE, of this city, is the Contractor for drawing the Maryland Lotteries The business is conducted under the firm of R France & Co., as Managers, and they have no sole agents in the city of Baltimore. The European Cough Remedy.
Important to Consumptive and the Public generally
The celebrated
Universal Cough Mixture
IS a safe and effectual Remedy for Coughs of every description, whether of children or adults, of recent or long standing.
PREPARED ONLY BY
WALTER CLARKE,
Druggist, Cornishville, Maine.
Within the last twelve months thousands of bottles of the Universal Cough Mixture have been sold in the State of Maine alone, and everywhere its extraordinary power in relieving and curing the diseases of the Chest and Lungs, is gratefully acknowledged, and especially in cases of obstinate and long standing Coughs, it speedily allays the inflammation in the throat which excites the coughing, promotes free and easy expectoration, and by removing the exciting cause of the cough, enables the sufferers to enjoy natural sleep, who for weeks had been deprived of it by incessant coughing
Sold in large bottles, 25 cents each, large bottles, containing the quantity of four small ones, 75 cents each.

Extract of a letter from Daniel Adams, Esq., of Dodonsham, Maine.
February, 17th, 1855
Mr Clark, Dear Sir—The bottle of Cough Mixture which you sent me, has entirely cured myself and family of the severest cough and cold that we have had for years. Our little daughter was entirely relieved of a cough of two months standing by the use of one bottle.

From Jesse Hoyt, Lewiston Falls,
Mr Clark, Dear Sir—I have used several bottles of the Universal Cough Mixture which you sent me, and find it to be all you recommended it to be. As far as I have heard from all have been perfectly satisfied with the medicine One gem, who had a cough of 3 months standing, attended with tightness of the chest and difficulty of breath, so that he was laid aside from business, has taken one large bottle, and before he had taken one bottle was entirely cured, and has had no cough since. It is the best medicine in the world, and I can recommend it to be highly recommended for highly
JESSE HAYES.

From Mr. Fletcher Chuck, agent for North Dixmont, Maine
Dear Sir—I have been afflicted for a number of years with a severe cough, which no remedy would relieve, until I was induced by your Universal Cough Mixture to make a trial of it, which I am happy to say has given me more than answered my expectation. My cough is now entirely removed, my lungs are in a healthy condition, and I am now perfectly well. I have given the Mixture to my children, and it has proved a sure cure for the Croup, and I believe it will cure any cough that is curable.

From Mr. Hubbard, Thorndike, Me.
February 1, 1854
Mr Clark Dear Sir—This certifies that I have been using your Universal Cough Mixture for a long time, and can say from my own experience in its use, and from observing its effects on others, that it is the best remedy for coughs, colds, and all diseases of the lungs that I have ever seen. I have used all kinds of medicine, and found them to be worthless, and have also employed several physicians, without obtaining the relief I have received from your Universal Cough Mixture. I have also used your Liniment, which I began to use according to the directions on the label, by which in a few days I was entirely cured.

FOOT-STOVE, LANTERN,

NURSE-LAMP.
ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Penobscot county, the above valuable inventions, is now prepared to offer them to the public.
As a FOOT STOVE, it answers all the usual purposes, and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage
As a NURSE LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm, beside giving the light desired, and for cooking in small quantities. For making tea, &c., it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a flat-iron heat in the same length of time
In fact, the various purposes to which this heat apparatus can be put may be readily conjectured by every one No further description is required as no one can misunderstand its general utility To say any thing more respecting its adaptability to a hundred purposes would just be telling what our readers can all see at once for themselves

"THE LAWS OF KANSAS."—By favor of a friend at Washington, we have received an official copy of the so-called "laws" of the Border Ruffian Legislature of Kansas. They are printed in book form, and duly authenticated. Some of the bunker presses and leaders in Maine, have affected to doubt the correctness of the extracts which have been published in the papers, from the bloody and infamous black code of slavery imposed upon the people of Kansas by the Missouri usurpers, and the *enforcement* of which, by the aid of the General Government, has led to the recent outrages and violence, and all but produced civil war in the Territory.

If any one really doubts the authenticity of those extracts, we can now give him the proof from the authentic publication of them, made by order of the Executive Department at Washington, and under the title of "Laws of the Territory of Kansas"—the Executive thus recognizing them as of legal origin, and to be *enforced*. These laws, it will be recollected, ESTABLISH SLAVERY IN THE TERRITORY, in defiance of that "popular sovereignty" principle which was made the justification of the repeal of the slavery restriction. And they provide the penalties of imprisonment, and in most cases *death* for raising an insurrection of *slaves*—for aiding or assisting *slaves* to escape in the TERRITORY—for taking *slaves* away from their owners in the Territory—for inducing them to assert their freedom—yea, even for expressing any doubt of the legal existence of slavery in Kansas, or for writing, printing or circulating any documents denying the legality of holding slaves there.

Not only this, but Section 13 of chap. 151, relating to "Slaves," says: "*No person who is conscientiously opposed to holding slaves, or who denies the right to hold slaves in the Territory, shall act as a juror* on the trial of any prosecution for any violation of any of the sections of this act."

Thus preventing all chance of escape from punishment, by any man who may have attempted by *word or deed* to dispute the legal existence of slavery in Kansas.

We now speak from the book, and shall take occasion by-and-by to publish the whole of this infamous chapter, from the official copy; as well as some of the other beauties of these "laws."

Letter from Kansas.

The following letter from one of the Kansas settlers who went from a town in this vicinity, will show something of the treatment which all the Free State men are receiving. It was written before the sacking of Lawrence.

LAWRENCE, May 17, 1856.

DEAR SIR.—I sit down to inform you of the state of affairs here at present, and they are anything but pleasant. At this time the Border Ruffians are all around the city, they say to the number of 1500, and making all manner of outrages on the citizens of Lawrence and vicinity; day before yesterday there was a company of twenty-five came to the mill where I was at work at a turning lathe, and made prisoners of me and ten others who were in the mill at various occupations. They arrested the whole without discrimination, and then put the question to us whether we were Free State or Pro-slavery, and there was not one that denied his principles. They kept us for the space of an hour and a half, and then the Major, Hubbard, told us that he had been informed by a Pro-slavery man that we had taken no active part in the troubles, and he should release us; but he has taken all of our arms and told us that if we were ever known to take up arms for the future, we should be strung up without judge or jury. After we were released I told the Major that I wanted to go home and did not wish to be molested. It is about 7 miles from the city, and he told me that if I would start in the day time and would not skulk, I should go unmolested,—otherwise I should be stopped. This was in the forenoon, and after dinner my partner and myself, started for home—proceeded about half a mile and was stopped and taken to the guard house, and then set at liberty. In all this operation they never said that they had us charged with any crime, nor showed us any documents, and the probability is that they had none.

The night before, the same company came to the same place and arrested three boatmen that were here for lumber, and robbed them of all their provisions and nails and rigging, and took the men off, and cut the boat adrift and let her go down stream. One of them made his escape, and got off, and the other two were detained until the next day, without food for twenty-four hours,—robbed them of two rifles, one revolver, and one knife, and then told them if they would sign certain papers, they would give them their arms, which they agreed to, and then had to leave their arms in their hands.

I think if the Pro-slavery Members in Congress were only here for three or four weeks, if they have any hearts at all, they would try to have us protected.

The Congressional Committee are at Leavenworth at this time, and I wish that they were ready to return, so that you might see what has been going on in the Territory.

They have Mr. Robinson and G. W. Brown, the Editor of the Herald of Freedom, and they say that they will have Gen. Pomroy. I saw him to-day and informed him of what I had heard, and he told me that Gov. Shannon says that he will give him up to the mob, and they may dispose of him as they please.

These are some of the facts in Kansas, and if time would permit, I would say much more.

The *Sacramento Journal*, a Bunker democratic paper says "the Black Republicans seem to be organizing extensively in the Sonoma countries." A large part of the paper is taken up with political articles against this stunningly interesting party.

A PLEA FOR THE HORSE—BEAUTY OF THE CHECK-REIN.

We copy the following remarks on the treatment of the horse from the Bu... Democrat:

It would be quite as sensible t... bit and curb a hodcarrier's head backw... rd, by a strap buckling to the seat of his p... loons, and set him to carrying brick up a ladder, in that hampered condition, as to ... horse's neck toward his tail, as a aid in drawing a wagon or getting fast over the ground.

Three things occurred to estab... this stupid tyranny over the horse, in En... land we mean. But one thing was necessary to estab... lish the custom in the United Sta... that it was practised by the English. ... Notwithstanding our Fourth of July, we are ... yet in a state of provincial servility to the ... fashions and the opinions of Britain, and we ... invita... by take the check-rein from them ... the ... sham Democracy takes free trade from their trans-Atlantic masters.

To hold up the horse's head, and ... make him look grand, among the grand institu... tions of England, was undoubtedly t... ...ose to the use of the check-rein. It w... found, that it was useful in evenly m... ...ching the gait and carriage of the noblema... ...s horse. Some timid fellow bethought him, on a... ...rtain occasion, as using it of a sort of ... to a post—holding thus a spirited or ... ...ky ass horse, and quite economically too ... for he made him hold himself.

In time, too, grew up in stables and ... ...lls a venerable and obstinate belief, th... the check-rein prevented the horse from ... ...ing. Nobody with the fox-hounds at the ... time proposed to take off the Squire's ... ponders to brace his jaws back with ... them by attaching them to his crupper. He ... left to nature in his pursuit of the fox. ... was not the noble animal he destroy... to his instinct and the law of its mec... action?

The check-rein should be abolish... ...d. It wastes motive power. Its use is unhe... ...lthy for it disturbs the otherwise natural ... equedly distributed vital forces. It sh... ...ens the life of the horse. It diminishes the ... ...ood, and lessens the free and quick action ... essential to the animal's safety and that ... driver. It is of no use, and cannot ... ...ve dignity or grace to an animal that was m... by the Lord. Had man got up the ... check-reins and all that sort of contriva... would have been allowable not only, but ... necessary. But the work of the Gr... Artist can not be improved upon.

Brethren of the press, let us emancip... the horse from the British check-rein.—*Ill...trated.*

This is to certify that I have been troubled for the last six years with humors, which broke out on my head, breast, and limbs, forming a complete mass, attended with a very pain, equal to piles, and have made use of many different medicines during the time, receiving no benefit from any, but for the last six months have been growing worse, and had given up all hopes of ever being any better, but fortunately about one month ago I was induced to make a trial of the Allied Ointment, which applied to the parts affected made a smarting sensation while drawing the humor out, which made it seem worse for a few days, but in the short space of three weeks, by making a continued application according to directions, I saw entirely free from all sores, it having effected a real cure, and I would most cordially recommend it to the afflicted, as being a safe and speedy medicine. THE GREATEST MEDICAL DISCOVERY Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds*, a remedy that cures

EVERY KIND OF HUMOR;

From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a burning sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

Two bottles are warranted to cure all humor in the scrofula.

Two bottles are warranted to cure ringing of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure any eruption of the skin.

One to three bottles are warranted to cure the worst case of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly for humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have ever more of it than I have.

I know of several cases of Dropsy, all of them aged people, cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As the directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 15 & 17, *Market Square, Portland, Maine*, to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

A SLAVE GIRL *Exchanged* for Rev. H. W
BEECHER'S CHURCH.—A remarkable and exhil-
ing scene was enacted in Plymouth Church,
Brooklyn, on Sunday last, a full account of
which we copy from the New York Tribune of
Monday:

At the conclusion of the sermon yesterday
morning, the Rev. Henry Ward Beecher an-
nounced to his congregation that he was about
to perform an action of a most extraordinary
nature, which he would preface by reading a
portion of the 12th chapter of Matthew. He
accordingly read the 10th, 11th and 12th verses
of that chapter, after which he proceeded to
give a sketch of the later history of a slave girl,
whose name, pal appeal in whose behalf he
had lately received. She was, he said, the
daughter of a Southern planter, acknowledged
by himself as his own offspring, and reared in
his own family until her other daughters grew
up, who had treated her so cruelly that she at-
tempted to escape. She was captured and taken
back to her paternal master, who made immedi-
ate preparations to sell her to the extreme
South, refusing to dispose of her to any one
who would permit her to remain in the neigh-
borhood.

Many persons in the vicinity, knowing her to
be a most faithful, efficient, and therefore, val-
uable piece of property, were anxious to pur-
chase her, but her owner utterly refused to sell
to them, his object being to have her removed
to a great distance that her near relation to
the other children could occasion them no
further mortification. She was, accordingly,
sold to a Southern man who held her at $1500
but who finally consented to part with her for
$1200. A storekeeper in Washington, paying
the girl, bought her for the latter sum, immedi-
ately, however, settling on her a subscription
to enable her to purchase her freedom, he him-
self contributing $100, another man, also a
storekeeper, gave $100, and $700 were finally
obtained. At the juncture, said Mr. Beech-
er, I received a letter asking if we would do
anything towards making up the rest of the
money, to which I replied, that it would do
nothing unless we could see her here.

The reverend gentleman here stepped from
the desk, and with an encouraging "Come up,
Sarah," helped upon the platform a young, in-
telligent-looking mulatto girl, whom he presen-
ted to the crowded audience as the slave
girl in question.

She is apparently about twenty-three years
old, probably three-quarters white, of very
pleasing and modest appearance. Mr. Beecher
seated her in a chair by his side, while he con-
tinued his remarks. She was here, he said, on
her own free soil, and he had promised to go
back, and the most return, either with or with-
out the five hundred dollars, which were yet
necessary to make her a free woman. A col-
lection would be taken up, and the result
would show their verdict.

By this time there was hardly a dry eye in
the whole immense congregation of nearly 3000
people. Men wept, and women sobbed—not
ostentatiously, but openly and without any at-
tempt at concealment. All seemed to be
touched to the very heart. The like scene has
never been witnessed in the world.

One gentleman here rose and announced
that the money should be forthcoming to make
her free, and that if necessary he would be per-
sonally responsible for the entire amount.—
This announcement was received with hearty
and long continued applause, the audience be-
ing no longer able to restrain their feelings, and
Mr. Beecher perceiving his approval of the ju-
dicious demonstrations. Sarah, the slave girl,
had, up to this time, preserved a tolerable com-
posure, but when the certainty was declared
that she should not go back to a life of of Slav-
ery, she buried her face in her handkerchief and
wept aloud. As the collectors passed among
the audience, the ladies were actively heaped
up with the tokens of substantial sympathy;—
nobody spared, took the jewelry from her per-
son and cast into the fund. The amount col-
lected on the spot was $784, which, besides
completing the sum necessary for the purchase
of Sarah, will also ransom her child, a boy of
four years, who is now in bondage.

THE LOST PIE.—It was many years ago, that
a middle-aged lady and her maiden sister, on
the approach of Thanksgiving, were in the
midst of preparation for that annual festival.
It was late in the evening; the spacious kitch-
en seemed all too small for the vast quanti-
ties of delicacies it contained. Cakes had the
various kinds of pies been drawn from the
ample oven and deposited on the dresser, table
and chairs, in admirable confusion. From
early morning to this late hour, had the mis-
tress of all this good cheer been laboring hard
and she now threw her portly and wearied
form into the great arm chair, to view her
treasures. She carefully counted over her
pies, and lo! one was gone! She knew the
capacity of the oven, and how many times it
had been filled, and her arithmetic told her by
experience that with not tie that a pie was missing.
She counted again, and the wanderer could not
be found. She was troubled, perplexed, and
nervous. She had made the discovery that
the missing pie was a pumpkin pie—of extra
size—a particular pie—all ornamented with
scalloped rim and various indentations with
spoon and thimble; in a word it was the pie to
grace the centre of the table at the Thanksgiv-
ing feast. No wonder that our good lady grew
warm with agitation, and it seemed to her that
the unwonted warmth also came from the seat of
the arm-chair. She arose to cool her body and
calm her troubled spirit, when a scream from
Becky, the maiden sister, opened the way to a
full knowledge of the catastrophe. It seems
that the good lady had placed the unlucky pie
in the great arm-chair, and unfortunately threw
herself into her accustomed seat. When she
arose, the horror struck Becky saw the yellow
treasure, sticking like a "poor man's plaster;"
and her hysteric screams made known the dis-
covery to her astonished sister.

INDIGNATION MEETING IN THE CHANNEL.—
The German citizens of Boston held a meeting
on Monday, in the Tremont Hall, 385 Wash-
ington street, for the purpose of considering the
recent outrage on Senator Sumner.

A series of resolutions was read, after which
several gentlemen made brief addresses in the
German language. The resolutions as well as
the addresses were highly denunciatory of the
conduct of Brooks, and most of the speakers
used strong and condemnatory language res-
pecting the management of affairs in Kansas,
and the conduct of President Pierce in regard
to that matter.

The meeting was a most enthusiastic one.

A GENTLE HINT.—A Scotch boy had deliv-
ered a message to a lady, but did not seem in a
hurry to go. Being asked if there was any-
thing else that his mother had bid him to say,
Jack willingly answered out, "she said I was na to
seek anything for comin', but if ye *gied me it,*
I was to *take it.*" We need scarcely add that
the hint was taken, and Jack's services were
amply rewarded.

The following challenge, which Mr. Brooks,
at least, ought to consider a fair one, appears
in the New York papers:

I challenge Preston S. Brooks to meet me on
any spot on "Missouri and Dixon's" line armed
by himself—weapons to be quite pervious—
I having the privilege to take both sticks with
the large under a desk, with his cane held by
from him.

Cheap & Convenient Building.
Door, Sash and Blind Factory.
A. DUNBAR

HAS been very successful in completing several contracts for Door Frames Doors Window Frames and Sashes and Blinds for good dwelling houses and other buildings to be erected in this city the coming season He has excellent workmen in his employ, and has superior stock so that he is now able to supply to those about to build the best articles of our Frames Window Frames, Sashes, and Blinds, made to any dimensions and of superior quality Either for a whole building or for a less quantity. The trouble and expense of building is very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure

This business has now become so well systematized that only a small margin is left in knowing beforehand the cost of a dwelling house, while the work is of a uniform excellent quality

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M S Jackson, on Exchange st, and at either place any article may be obtained or large quantities ordered.

Mr Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers both in quality and price, and so well organized in the business that no man should now think of building in the old and slow and unprofitable methods

HELMBOLD'S GENUINE PREPARATIONS
HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Buchu.

IS A CERTAIN, SAFE, AND EFFECTUAL REMEDY

For Diseases of the Bladder, Kidneys, Gravel Dropsy, Weakness Secret Diseases, Obstructions, Female Complaints,

and all Diseases of the Sexual Organs, whether in MALE OR FEMALE,

from whatever cause they may have originated, and

No Matter of How Long Standing.

This popular and specific remedy is now offered to the afflicted, and guaranteed to cure all the above complaints It searches out the very roots of the diseases, driving out all the diseased fluids of the body, thus removing the cause and rendering the cure

Certain and Permanent.

This medicine allays pain and inflammation, which other remedies invariably cause, and can be taken with less trouble and expense to patients This infallible remedy has saved thousands upon thousands from the hands of

Merciless Quacks,

and from premature graves In cases of infection, the Compound Buchu is the only article worthy of the least confidence of the afflicted in performing a

SAFE CURE

It contains no narcotic, mercury, or other injurious drug, but is a purely VEGETABLE COMPOUND It is very agreeable to the taste, creates no perceptible odor, and may be taken by persons of either sex without hindrance from business or medical advice as plain directions for use accompany the medicine. Readers, if you have any of the above complaints do not neglect them

Delays are Dangerous

With this medicine you can cure yourself, and thus prevent all exposure

Truth must and will prevail

This medicine speedily and effectually cures the most virulent form of secret diseases, and eradicates every particle of infectious matter from the patient to a perfect state of *Health and Purity*. And as a medicine which must benefit every body from the simply delicate to the confined and despairing invalid, no equal is to be found it acting both as a *Cure and Preventive* of any of the above ailments

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,
—FOR—

Purifying the Blood, removing all diseases arising from Excess of Mercury, exposure and imprudence in life, chronic constitutional disease arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of scrofula, Salt Rheum, Scald head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples in the Face, and all scaly Eruptions of the skin.

It is gratifying to the proprietor of these medicines to be able to state that it is now nearly three years since they were first introduced, during which time they have been extensively used in various parts of the United States and have given to patient and practitioner the highest degree of satisfaction in the various cases in which they have been employed whether in town, country, hospital or private practice, they have invariably given the most decided and unequivocal satisfaction, and produced the most salutary and beneficial effects Numerous letters have been received from the most distinguished physicians in the country, and from the professors of several medical colleges, recommending in the highest terms the value of these medicines and their superiority over all other preparations for such complaints as the proprietor recommends Numerous preparations of Sarsaparilla and Buchu and various modes of preparing them have been given, all of which of course will differ according to the mode of preparation which each individual may adopt

These medicines require considerable care in the preparation, and the employment of different measures in successive operation to take up the extractive matters, and in consequence, are most frequently improperly made and not unfrequently much impaired, if not rendered totally inert, by the injudicious and unskillful management of those unacquainted with pharmaceutical preparations It is, therefore, of the highest consideration and importance to the public and to the faculty, that there should be established standard preparations of uniform strength and possessing the most advantages To effect this and obviate the evils hitherto I have made a number of experiments to ascertain the most effectual mode of extracting the virtues of the Sarsaparilla and the Buchu and to discover the most eligible form for their exhibition The experiments have resulted most favorably and it is with much pleasure I now offer to the public and the faculty my Compound Fluid Extracts, which contain all the virtues of the articles they are represented to be made from in a highly concentrated form, and are the most active preparations which can be made Two table spoonfuls of the Extract Sarsaparilla added to a pint of water is equal to the Lisbon diet drink, and one drachm fully equals in strength one gallon of Syrup Sarsaparilla or decoction, as usually made

—PRICES—

Fluid Extract Buchu, $1 per bottle, or 6 for $5
" " Sarsaparilla " "

Certificates of cures and recommendations from distinguished professors and physicians, will accompany each preparation Prepared and sold by
